Applicants state under 37 C.F.R. §1.97(e)(1) that the following publications (U.S. Patent No. 5,163,130; International Publication No. WO 98 44695; and, European Patent No. EP 0 499 404) were cited in an International Search Report issued in connection with a counterpart Patent Cooperation Treaty application not more than three months prior to the filing of this statement. For the Examiner's convenience, a copy of the International Search Report is also enclosed.

The submission of the remaining publications does not constitute a representation by the Applicants that a search has been made or that no better art exists and does not constitute an admission that any of the listed publications are material or constitute "prior art." Applicants reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed publications, should one or more of the publications be applied against the claims of the present application.

It is Applicants' belief that this Information Disclosure Statement is being filed prior to the mailing of a first Office Action on the merits, and therefore, no fee is due.

However, in the event a fee is due, please charge any fee deficiency or credit any overpayment to Deposit Account No. 08-0219.

Respectfully submitted,

Dated: September 21, 2000
